

## RECOMMENDED PRICING

These are just recommendations, as pricing can be influenced by many factors. Use this as a reference to guide you. Choose a price you'd feel good about paying, considering the brand and quality. If you're unsure, ask a friend what price they'd be excited to buy it for. Personally, I like to price my items based on what I would be happy paying if I were shopping for that item.

If you're struggling with pricing a specific item or have questions, feel free to contact me via text or through social media.

**We do not accept items that are torn, stained, pilling, missing pieces, or not in working condition.**
